SPRINGFIELD, OREGON  
\$850 PER PERSON

**REGISTER NOW AT:**

[www.soisystems.com/ipp-training.html](http://www.soisystems.com/ipp-training.html)

This workshop is available to those who have been previously trained in SOI.

The need for more IPP centers is becoming more and more obvious, which is why **we strongly encourage all SOI practitioners to be trained in IPP**, which focuses on how physical abilities relate to the left and right side of the brain and, ultimately, learning.

**IPP is an invaluable asset to SOI abilities testing and training, as it works to create a well-developed and functioning body that is ready to engage in physical and mental activities.**

You will receive a \$500 discount on your next one-year license fee for IPP Management as an incentive to use IPP in your clinic, center, or school. For SOI learning centers, this brings the cost down to \$1000. For schools, the cost is \$2900.

An IPP kit purchase is required to attend this training. **We have a special, customizable IPP starter kit available.** The price starts at \$475 (an \$825 value).

Contact us for details. We will help you figure out exactly what you need in your kit!
