

# FORM CR CFU SUBTEST: UPDATED ANSWER EQUIVALENTS

We have updated the graphics for the CFU because many of the old graphics had become obsolete, making the subtest unfair to anyone who took it.

Some of the answer equivalents have been updated to reflect the changes to the graphics. See the list below.

Due to these changes, we have also updated the norming for this subtest. You can download the new norms on our website under Products > Resources.
